Mobility “Your Way” with Nsight

Mobility is changing the way we perform business. Mobility offers real-time information to speed up almost any type of activity for your business to gain productivity efficiencies and better results. With the number of mobile users touching the billion mark, customer expectations for right information at right time has become standard industry model and expectations from business user community.

And although your employees can be more productive when they access corporate applications and data away from their office desks managing this advanced technology isn't that simple. This is where Nsight can help.

Nsight provides affordable and reliable mobile solutions and services that enable clients and their customers to capture every interaction on any device to enable improved business performance. Nsight offers closed loop Mobile Implementation methodology and proven approach to assess, plan, design, build and support your Mobile applications. With Nsight, you can have Mobility Solutions “Your Way” customized to your needs leveraging a proven approach.

Mobility Readiness & Assessment

Nsight subject matter experts help clients develop mobile strategy and prioritized roadmap to drive key value drivers for your business users. Nsight offers a fixed price mobile assessment and in-depth upfront analysis of your business needs and best approaches to enterprise mobility that mitigates your risks and maximizes your investments.

Mobility Application Development Lifecycle

Nsight offers full suite mobility implementation services in all emerging platforms and operating system technologies including:

- Sybase Unwired Platform
- Kony
- ThingWorx
- iOS
- Android
- Blackberry
- Windows mobile
- HTML 5

Nsight can assist in deploying cost effective and cross platform customized mobile capabilities based on your specific needs using a wide spectrum of mobile technologies.

Mobility Service & Support

Nsight connects the dots for you and provides a set of comprehensive support services that includes 24 hour online support, offsite and onsite support model, So you can drive a lower TCO and focus on enriching your mobile applications.
